ABOUT ME

I'm a junior software developer studying for a CTESP in web and multimedia development at IPCA. I have solid skills in programming, web development and database management.

I took part in school projects such as WeatherMovieApplication , which gave me practical experience in Node.js, Express.js and Supabase. I've also carried out other personal projects in Express.js and React.js. I've also done internships at Otelec on Erasmus+ and at TMG Automotive

TECHNICAL SKILLS

Back-end Node.js, Express.js
Front-end HTML, CSS, JavaScript, React.js, Bootstrap, TailwindCSS
Databases Supabase, mySQL
Tools Postman, Insomnia, Git, Github, Docker

EDUCATION

IPCA (Instituto Politécnico do Cávado e do Ave)
2023 - Ongoing

CTESP in web and multimedia development

- Projects: PersonalPortfolio, WeatherMovieApplication, API-ContactList
- Technologies: React.js, Node.js, Express.js, Supabase, Git, Docker

INA (Instituto Nun'Alvres)
2020 - 2023

Electronics, Automation and Computer Technician (Level IV)

- Projects: CultiSmart
- Technologies: HTML, CSS, JavaScript, PHP, Arduino

WORK EXPERIENCE

Pingo Doce - Santo Tirso

June 2024 - Present

Cashier Operator

- Providing customer service and handling checkout operations efficiently.

TMG Automotive - Guimarães

August 2023 - September 2023

Industrial maintenance technician

- Performed industrial maintenance tasks as an electrician, ensuring proper operation of equipment.

Otelec - Erasmus + (Spain)

May 2023 - July 2023

Fiber Optic Installation Technician

- Carrying out tasks related to the installation of fiber optic networks in urban areas.
-

PROJECTS

WeatherMovieApplication

I've developed an application that dynamically combines weather information and movie suggestions.

- Skills: HTML, CSS, Node.js, Express.js, Supabase, Docker
- Links: **github** & **docker hub**

API Contact List

I have developed a simple API to manage a list of contacts. The API allows you to create, list and delete contacts, with the data stored in a .txt file.

- Skills: Node.js, Express.js
 - Links: **github**
-
